

Jessica - Cylch Meithrin Nelson

Jessica recently decided to take an Intermediate level Camau course to allow her to refresh her Welsh skills.

Why?

Jessica works as an Assistant at Cylch Meithrin Nelson, which provides a service in Caerphilly. Although Jessica can already speak Welsh, she was keen to take an Intermediate level course to improve her Welsh and to practise the language patterns available in the course.

The main benefits of taking the online self-study course according to Jessica were the fact that "it helped improve my Welsh language and helped raise my confidence in using Welsh."

Result!

Jessica noted that she preferred online learning, and every resource available in the course was helpful to support her on a day-to-day basis.

Support was available from the Lead Officer at all times when needed.
